

# User Guide for the Oak National Academy

## Schedule

[Switch to subject view](#)

Please select a year group

Click the link below to visit the Information for Parents and Pupil page of the National Oak Academy website:

<https://www.thenational.academy/information-for-parents-pupils/#>

From the homepage select 'schedule' from the top right corner. This takes you to the daily activities for English, maths and one other subject.

Select your child's year group to be taken to their tasks for the coming week. Remember, if they are finding the work too difficult, they can try the work for the year group below. If they want to challenge themselves further, they can try the work for the year group above.

You can even access your daily 'PE with Joe' lessons from the schedule.

The National Oak Academy also hosts a virtual assembly\* which is available every Thursday after 11am.

*\*The assemblies are hosted by YouTube so there may be adverts. The school takes no responsibility for the content of these adverts.*

## To identify perpendicular lines

Click on the lesson you want to start and follow the instructions.

In this lesson, we will be building on our work on angles (in particular right angles) to identify perpendicular lines. We will look at these individually and within 2D shapes, as well as having a chance to find these yourselves.
