

Family Fun Challenge- wk beg 25th Jan 2021

A fun activity you can do as a family if you wish. We will share a different activity idea each week.

Button String Toy

You will need:

- Button
- Thread

Method:

1. Cut a long piece of string.
2. Thread the string through two of the button holes. If the button has four holes, place string through diagonal holes.
3. Tie the two loose ends of the string together with a knot.
4. Make finger loops at each end by tying another knot near the end of the string large enough for a finger (optional).
5. Play

How to use the toy:

1. Grasp one end of the loop with each hand.
2. Make sure that the button is in the centre.
3. Swing the button forward in a circular motion to wind the toy.
4. Gently pull the string out and then relax the tension while it winds. Then, pull it out again. Once the button is spinning, keep up the in-and-out motion.
